We found a manufacturer who had a supply of plush on hand at this year's market prices. We bought at old markings.

Then we selected four conservative, smart styles that would be fashionable next season as well as now.

The coats have long, sweeping flares with all around belts, large two-in-one collars and various pocket effects. Some of the coats are trimmed

with kit coney, Manchurian fur, silver bear plush and Kerami. Guaranteed satin linings. Smart new coats at \$24.75.

While many weeks of wear can be had from these coats this season the wisest thing to do is to buy them for next season. With materials increasing in price daily the importance of buying these coats now can readily be seen. The styles are conservative, making them equally desirable for next season's as well as present wear.
